PROFESSIONAL SUMMARY

Computer Science undergraduate (GPA: 3.21/4.0) with 2+ years of professional experience building backend services and full-stack features using Python, Java, Django, and FastAPI. **UNT Senior Design Award Winner** — led AI engineering on MYRA, a Wardrobe AI Assistant powered by computer vision and LLMs. Seeking a Software Engineering Internship focused on reliable, user-centered products.

EDUCATION

University of North Texas — B.S. Computer Science

Expected Dec 2026

Irving, TX | GPA: 3.21 / 4.0

- **UNT Senior Design Award Winner** — MYRA: Wardrobe AI Assistant (Capstone Team: QuadNet, 2025)

Dallas College — Associate of Science

May 2024

EXPERIENCE

Software Developer Intern

Jan 2021 – Jan 2023

Visa Success Connect Pvt. Ltd. | Python, Java, Django, JavaScript | Kathmandu, Nepal

- Built and maintained **backend services** in Python and Java to streamline client data management workflows.
- Delivered full-stack web features with a cross-functional team, improving client engagement by **25%**.
- Optimized and debugged legacy codebases, reducing system errors by **15%**.

PROJECTS

MYRA — Wardrobe AI Assistant ★ UNT Senior Design Award Winner

React Native, FastAPI, MongoDB,
LLM/Vision AI

- Led UX design and wardrobe upload flows for a 4-person capstone team, earning the **UNT Senior Design Award**.
- Prototyped an **AI-assisted clothing tagging pipeline** combining computer vision and LLMs to automate item categorization and reduce manual labeling.
- Integrated **FastAPI** backend with React Native frontend via RESTful APIs for wardrobe CRUD and real-time AI inference results in MongoDB.

Visa Success Connect — Web Application

Django, JavaScript

- Implemented **authentication and CRUD workflows** and integrated a secure **payment gateway**; iterated features via structured user testing.

Dark Side — 2D Side-Scrolling Game

C++, Box2D

- Built custom **map/tile editor tooling** and implemented gameplay features (respawn, collision detection, parallax backgrounds) in a Box2D engine.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript / TypeScript, C / C++, SQL

Frameworks & Tools: Django, FastAPI, React Native, Git / GitHub, Visual Studio 2022

Platforms & Databases: MongoDB, Linux / WSL2

AI / ML: LLM Integration, Vision-based AI Tagging, Prompt Engineering

AWARDS & RECOGNITION

- **UNT Senior Design Award** — MYRA: Wardrobe AI Assistant, University of North Texas (2025)
- **Golden Lion International Film Festival** — Award Winner | **CKF International Film Festival** — Official Selection | **Lift-Off First-Time Filmmaker Sessions** — Vol. 11 Official Selection
- Directed and edited short films end-to-end; post-production in DaVinci Resolve (editing + color grading).
